

## PROFILE

I am Passionate and self-driven software developer with hands-on experience in **Python, Java, DevOps** and web development technologies. Strong understanding of software engineering principles and eager to contribute to innovative and impactful tech solutions. Hands-on experience with setting up **CI/CD** pipelines using Jenkins and GitHub Actions. Proficient in containerization using Docker and version control with **Git**. Implemented automation scripts for deployments and infrastructure provisioning. Basic experience with AWS, **Linux** server environments, and monitoring tools. Excellent collaborator and problem-solver, capable of working in both individual and team environments.
